

What's New in ZWCAD 2025

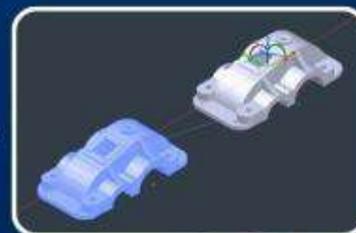

01. New Visual Styles

Meet diverse visualization with the additional of 4 visual styles, including Conceptual, Realistic, Shade of Grey, and X-Ray.

02. Efficiency Improvement

Open, pan and zoom complex 3D models faster and smoother.

03. 3D Gizmo

Move, rotate, and scale 3D objects conveniently with 3D gizmos.

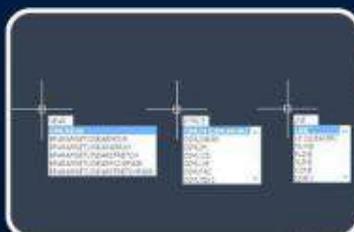

04. Ribbon Improvement

Customize your own workspace freely with Ribbon panels that can be slid out, dragged, floated and collapsed as icons.

05. Panel Improvement

Panels can be stacked and hidden automatically to provide a bigger drawing space. A new navigator helps you drag or dock panels more conveniently.

06. Command Match Improvement

Find what you need faster and easier with the support for non-initial string matching and sorting by frequency of use.
